Recommended capacity per day: 1kg

Product Code: 10192

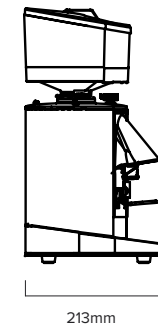

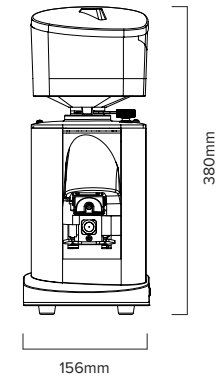

COLLABORATIVE. COMMITTED. COMMERCIAL.

Small outside. Big inside.

- Your silent solution – sound-proofing technology is no longer just for the most high-end grinders. Development work by Nuova Simonelli has enabled the creation of the ‘Silent-block’ system on the body of the grinder which reduces noise. The “Silent-block” technology eliminates vibrations. Resulting in a delicious espresso with the benefit of a silent setting.
- MDH is equipped with a strong motor that guarantees powerful and uniform grinding. Its flat 50 mm steel alloy burrs provide high performance, consistently.
- MDH features a micrometric grinding adjustment system that guarantees maximum flexibility and greater precision. The aluminium body, with a load bearing structure, is robust and reliable.
- The compact 500g hopper means you can fit this grinder under almost any home kitchen counter.
- **Key features:** micrometric grind adjustment, portafilter hook, clear bean hopper, aluminium body.
