**COLLABORATIVE. COMMITTED. COMMERCIAL.**

## The global espresso standard. The grinder that's noticeably silent.

- Your silent solution – sound-proofing technology is no longer just for the most high-end grinders. The MDXS delivers the perfect coffee grind with customer interaction in mind.
- Consistent dosing – not only does the MDXS give you your coffee quickly, its funnel system has been designed to make coffee powder flow from the grinding chamber smoothly. This means less residue, ensuring consistent quality, fresh coffee grind after grind.
- Great grind, better coffee – the MDXS introduces a new aeration system at the top of the grinding chamber. This keeps temperature at a constant level maintaining dose parameters and flavour profile.
- Key features – micrometric grind adjustment, clump crusher, long life burrs, portafilter hook and a stable temperature grind chamber.
