**Grind burr material:** Stainless steel

**Recommended capacity per day:** 5kg

**Recommended capacity per hour:** 1.8kg

**Product Code:** 10076

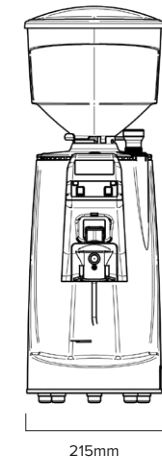

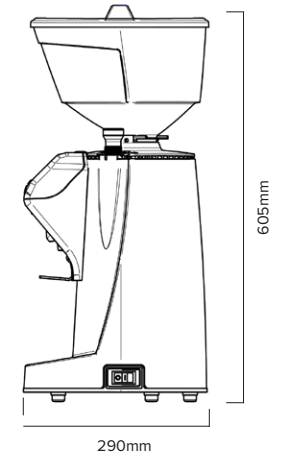

**COLLABORATIVE. COMMITTED. COMMERCIAL.**

**The global espresso standard. Consistent grinding shot after shot.**

- Your silent solution – the MDJ delivers a higher capacity of ground coffee, quietly, thanks to innovative sound proofing technology and large 75mm burrs.
- Consistent dosing – not only does the MDJ give you your coffee quickly, its funnel system has been designed to make coffee powder flow from the grinding chamber smoothly. This means less residue, ensuring consistent quality and fresh coffee grind after grind.
- Great grind, better coffee – the MDJ introduces a new aeration system at the top of the grinding chamber. This keeps temperature at a constant level maintaining dose parameters and flavour profile.
- Key features – micrometric grind adjustment, clump crusher, long life burrs, portafilter hook and stable temperature grind chamber.

SPECIFICATIONS

Burr size (mm)	75
Burr material	Stainless Steel
Grinding capacity per day	5kg
Grinding capacity per hour	1.8kg
Power (watts)	575
Power requirements	1 x 230Vac 13A standard 3-pin socket
Breaker	B
Weight (kg)	15
Dimensions w x d x h (mm)	215 x 290 x 605
